

# Mobile Infirmiry

## Monthly Cardiovascular Conference

**Target Audience:** This monthly multidisciplinary cardiovascular conference is targeted to physicians who have patients of interest to Cardiology, CV Surgery, and Vascular Surgery with emphasis on angiographic findings, interventional and surgical procedures, correlation of ECHO's and outcomes with different levels of expertise that they can bring to the table to optimize patient care. Nursing staff, technicians and students are encouraged to attend and participate in discussion to enhance understanding of cardiovascular care.

**Global Objective:** Participants will be able to discuss latest treatment modalities used in managing cardiovascular patients, recognize advances in interventional cardiology, describe diagnostic studies related to cases presented, and integrate informed clinical decisions into practice management of quality patient care.

### Date, Time & Location

**Wednesday, May 1, 2024**  
**7:00 a.m. – 8:00 a.m.**

#### Mobile Infirmiry

### Cases / Presenters

- **Removal of Tricuspid Valve Vegetations /**  
Dr. James Gladden and Dr. Mina Jacob
- **Supporting the Failing Right Ventricle with Impella /** Dr. James Gladden
- **High Risk Percutaneous Coronary Intervention Needing Hemodynamic Support /** Dr. Mina Jacob
- **Late Breaking Trials from ACC-24 /** Dr. Hercules Panayiotou

### Identified Need:

Heart disease is the **leading cause of death** for men, women, and people of most racial and ethnic groups in the United States. **One person dies every 34 seconds** in the United States from cardiovascular disease. About **697,000 people in the United States** died from heart disease in 2020—that's **1 in every 5 deaths**. Heart disease cost the United States about **\$229 billion** each year from 2017 to 2018. This includes the cost of health care services, medicines, and lost productivity due to death.

The goal of Cardiovascular Conference is to improve understanding of the management of patients with emphasis on clinical correlation of cardiac catheterization, interventional cardiology and ECHO cardiology. At Mobile Infirmiry, IAC Guidelines must be adhered to for accreditation purposes, which ensures a unilateral approach that is recognized organizationally-wide.

**Disclosures:** Activity director, Dr. Hercules Panayiotou, and Stacy Lumpkin, as activity coordinator, disclose no affiliations or financial agreements with ineligible companies. Disclosures of the Medical Education Committee have been reviewed; no relevant relationships exist pertaining to this live activity with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

#### Designation Statement
